- Was part of the electors body in college where I was tasked with coordination of people, planning of the election process and conducting.
- During my second year I took to carpentry and developed to a point where it became an income earner for me. Since then I've worked for various clients and on various projects.

## **EDUCATION BACKGROUND**

**2018 – 2022 : KAIBOI TECHNICAL TRAINING INSTITUTE**  
Diploma in electrical and electronic engineering.

**2013 – 2015: : MUHORONI SECONDARY SCHOOL**  
B-

**2002-2012 : : KENYATTA UNIVERSITY PRIMARY SCHOOL**  
B

## **WORKING EXPERIENCE**

**Jan 2016- Continuing : HANDYMAN**  
Electrical wireman  
I started as a helper to an electrician where I helped in doing repairs and maintenance in households in addition to installations and wiring in construction sites. As my skills developed, I started taking up my own projects. This interest led to me taking up electrical engineering as a course in college to advance my skills.

**JAYDEN LIMITED**  
: Brand Ambassador for Safaricom plc

**Dec 2015- Jan 2016**

Worked under Jayden Limited on a B2B( business to business) project where we introduced the LNM (lipa na M-pesa) payment platform to clients. This was the second leg of the project. The work also included doing a recognisance on those reeled in during the first phase where we went to the Safaricom call center to follow up on the clients through calls. The project ran for a month. I understood from this project equity and shares. I also learnt from my experience at the call center about call center etiquette and feedback gathering.

### **HANDYMAN JOBS**

Electrical wireman

**Jan 2016 - Ongoing**

I took an interest in electrical works and started out helping a handyman in his electrical works whenever they appeared. Doing repairs in households and installations at construction sites.

**Mar 2016- Apr2016**

### **INTERACTIVE COMMUNICATIONS**

Brand Ambassador for British American Tobacco

It was on a B2B basis where also we introduced to the market a brand by the name of rothmans, which was to be as a variant of another existing brand. This project helped me understand the supply chain in business.

**Jun 2016 : INTERACTIVE COMMUNICATIONS**

Brand ambassador for Uniliver Kenya.

This was a roadshow activation where we offered promotions for uniliver brands which included; OMO (washing detergent), Vaseline sub brands (lotions and jelly), Geisha bathing soap and Colgate toothpaste. The drive was aimed at re-educating the market on the retail price as well as gathering feedback.

**Aug 2016- Oct 2016 : INTERACTIVE COMMUNICATIONS**

Instore activation for unga limited

This drive was aimed at pushing sales for unga limited line of flour brands which included the familia porridge flour, jogoo maize flour and their line of cereals products. I learnt how to improve product visibility in stores and feedback gathering.

**Aug 2019- Oct 2019 : CIRCUIT DESIGN AND ENGINEERING**

Academic attachment

This was my first year attachment in college where i was expected to implement the knowledge i had learnt in the practical world and also to acquire technical skills. Here I learnt to;

- Design circuit for a households, common spaces and outdoors both manually and using AutoCAD
- Come up with a bill of quantities
- Plan spacing between lightings in order to achieve the most suitable and functional lighting for a space.
- Design placement of cameras for surveillance.

**Oct 2019- Dec 2019 : JAFRABEC LIMITED**

Academic attachment

In partnership with CIRCUIT DESIGN AND ELECTRONIC, i got linked to JAFRABEC LIMITED where I got field experience where I was to apply what I had learnt in the office.

Here, among others, I learnt:

**Aug 2020-  
continuing**

:

- Conduit laying.
- Wiring and installation of lighting fixtures.
- Implementation of a planned design.

## **WOODWORKING**

During the covid period, all public institutions including colleges were closed and so to keep myself occupied,I took up carpentry.

This I took by chance and developed in skills and built a niche for myself, building home furniture and doing basic household maintenance.

Going forward, I intend to set up a workshop to incorporate both woodwork and electrical engineering.

:

**Sept 2021- Dec 2021**

## **ORIECO LIMITED**

Academic attachment

This was done while I was in my second year of college. I was privileged to find and be a part of a project to electrify a rural area in Ugunja, a project aimed at improving agricultural yields, the business sector and the general livelihood of the people of Magoya, Konjra and Hareka vilages. The project incorporated major aspects in my field of study, namely; power generation, transmtion, installation and maintenance.

We incorporated the three most common power generation methods including;

- Hydroelectric power generation
- Solar power generation
- Diesel power generation

I found the project ongoing and at a point where they were installing solar modules which we did together and then implemented a changeover in order to swieth safely from one source to another.

Amongst the tasks I was expected to carry out included:

- Maintenance of overhead lines and fault finding.
- Pole dragging and erecting.
- Carrying out systems checkups.
- Household power installations
- Power dropping from poles to households.
- Household maintenance for electrical wiring and fault finding.
- Reeling in households to the electrification project.
- Data collecting.
- Finding a solution to a challenge the company was facing in terms of financing and manpower.

I got the chance to make a proposal and to find a way to implement an attachment and internship program with the program which I did and submitted (approved and implemented).

:

**3rd - 4th Sept 2022**

### **DARAJA PLUS AGENCY**

Brand ambassador for Reckit Benkizer

This two day sales project was aimed at pushing awareness for the toilet cleaning brand, Harpic 200ml. It was a door to door project where we sold the brand to households on offer and giving an incentive of jik 30ml. It also included data collection from clients.
